Zhuoli Yin

Ph.D. Candidate ◇ Edwardson School of Industrial Engineering ◇ Purdue University
+1-765-775-8097 ◇ zhuoliyin@purdue.edu ◇ Website: https://zhuoliyin.github.io
GRIS 324D, 315 N. Grant Street ◇ West Lafayette, IN 47907, USA

Research Interests

AI/ML-Augmented Combinatorial Optimization, Transportation and Logistics Systems, Sustainable Computing, Intelligent Tutoring Systems

Education

- **Purdue University** *08/2021 - 08/2026 (Expected)*
  ***Ph.D. in Industrial Engineering**, Advisor: Dr. Hua Cai* West Lafayette, IN, USA
  - Graduate Certificate in Applied Statistics
  - Interdisciplinary Computational Science and Engineering Graduate Program

- **Purdue University** *08/2019 - 08/2021*
  ***M.S. in Industrial Engineering**, Advisor: Dr. Hua Cai* West Lafayette, IN, USA

- **Beihang University** *09/2015 - 07/2019*
  ***B.E. in Electronic and Information Engineering**, Advisor: Dr. Xiaoqian Sun* Beijing, China

- **Polytechnic University of Madrid** *02/2019 - 05/2019*
  ***Exchange undergraduate student in Computer Science**, Advisor: Dr. Massimiliano Zanin* Madrid, Spain

Professional Experience

- **Amazon** *06/2025 - 09/2025*
  ***Applied Scientist Intern**, Global Transportation Services* New York, NY, USA
  - **Led the full project lifecycle** from conceptualization, multi-source data analysis, large-scale simulation, AI model training, and minimum viable product delivery.
  - Developed Amazon's next-generation AI-driven tools in production for resilient and dynamic logistics network design.

Research Projects and Collaborations

- **Graduate Research Assistant** *2025*
  Development of Indiana-Specific Trip Generation Procedures & Models of e-Commerce Demand: Implications for INDOT's Travel Demand Modeling and Investment Planning
  - Funder: Indiana Department of Transportation (INDOT)
  - PIs: Dr. Nadia Gkritza and Dr. Hua Cai
  - Responsibility: Co-lead the project and develop agent-based models integrating e-commerce demand with daily personal travel patterns based on survey data in Indianapolis.

- **Graduate Research Assistant** *2022*
  Teaching Innovation Project: Developing an AI-powered "TA" tool for IE343 (Engineering Economics)
  - Funder: Purdue Innovation Hub
  - PIs: Dr. Hua Cai and Dr. Erhan Karakaya
  - Leveraged Gradescope data to develop a web-based intelligent educational tool that predicts causes of incorrect answers and delivers personalized feedback.
  - Collaborated with software engineers and instructors for classroom deployment and evaluated the tool's effectiveness, resulting in two under-reviewed papers.
  - Highlighted by Purdue Today Article (A new kind of teaching assistant), and Purdue InnovatED Graduate Research Magazine (Meet Arthur: Your AI Virtual Teaching Assistant).

- **Graduate Research Assistant** *2021*
  A Computational Approach for Industrial Water Consumption Estimation, Prediction, and Impact Evaluation
  - Funder: Purdue College of Engineering Initiative on Smart City
  - PIs: Dr. Inez Hua and Dr. Hua Cai
  - Responsibility: Co-Led the project and developed optimization model and natural language processing approach for pairing large-scale water withdrawal and discharge.

Teaching Experience

- **Teaching Interests**
  Engineering Economics, Linear Programming, Integer Programming, Dynamic Programming, Stochastic Models, Probability and Statistics, Manufacturing Processes, Supply Chain and Logistics Modeling, Systems Simulation

- **Teaching Certificates** *Fall 2022*
  Certificate in Foundations of College Teaching, Purdue University

- **Instructor, Purdue University** *Fall 2023*
  IE 343 - Engineering Economics (In-person)
  - Enrollment: 148 undergraduate students from 10 different engineering disciplines.
  - Student evaluation score: 4.5 out of 5.0
  - Fully responsible for the class, and supervised two teaching assistants and two graders.
  - Topics covering the time value of money, cash flow analysis, capital depreciation, and cost-benefit analysis.
  - Administered a flipped class model to promote student-centered active learning.
  - Maintained an AI-based virtual teaching assistant tutoring system, supporting the practice of assignments.
  - Evaluated students' learning outcomes for Accreditation Board for Engineering and Technology (**ABET**)

- **Guest Lecturer, Purdue University** *Fall 2024*
  EEE 560 - Environmental Data Science (In-person)
  - Enrollment: 37 graduate students
  - Developed a session on leveraging artificial intelligence for environmental problem solving using applicable data.
  - Led the discussion on the state-of-the-art artificial intelligence algorithms.
  - Provided feedback to students' group research proposals.

- **Teaching Assistant, Purdue University** *Fall 2021 - Fall 2025*
  IE 343 - Engineering Economics (In-person; Online in Spring 2022 and Summer 2024)
  - Nine sections in total
  - Enrollment: 100-200 undergraduate students per section
  - Average student evaluation scores across eight sections: 4.6 out of 5.0
  - Hosted regular office hours and led the online forum discussion.
  - Mentored graders for developing solution keys and grading assignments.
  - Taught review sessions to facilitate the preparation for the exams.
  - Designed exams and case study projects.
  - Provided ABET assessment materials for the courses.

- **Teaching Assistant, Purdue University** *Spring 2024*
  IE 590 / EEE 595 - Urban Mobility Optimization (In-person)
  - Enrollment: 22 graduate students
  - Student evaluation score: 4.8 out of 5.0
  - Developed example codes to showcase the application of Gurobi modeling.
  - Organized the forum discussion on the latest topics in urban mobility, such as electric vehicles, autonomous vehicles, and ride sharing.
  - Mentored the case study project and supported coding, data processing, and results analysis.

Student Mentoring

- **Quan The Dinh** *08/2023 - 12/2023*
  Undergraduate Student in Computer Science, Purdue University
- **Karen Fortunat, Elaine Sui** *02/2023 - 05/2023*
  Undergraduate Students in Industrial Engineering, Purdue University
- **Laura Almeida Tinjaca** *08/2022 - 02/2023*
  Undergraduate Student with the National University of Colombia-Purdue Program
  - Admitted into MS program in Environmental and Ecological Engineering at Purdue with Lynn Fellowship
- **Kalei Bass** *05/2022 - 08/2022*
  Undergraduate Student in Industrial Engineering, Purdue University

Professional Service

- **Journal Reviewer**
  - *Journal of Cleaner Production*
  - *Networks and Spatial Economics*
  - *IEEE Transactions on Intelligent Transportation Systems (ITS)*
- **Conference Reviewer**
  - International Symposium for Sustainable Systems and Technology (ISSST) 2024
  - Neural Information Processing Systems (NeurIPS) 2025
  - Transportation Research Board Annual Meeting (TRBAM) 2026
- **External Service to Professional Societies**
  - Session Chair, IISE Annual Conference & Expo 2022
  - Support team, 2023 Purdue Research Symposium on Operations
- **Internal Service at Purdue University**
  - Vice President, Industrial Engineering Graduate Student Organization (05/2022 - 05/2023)
    - Organized the Industrial Engineering research symposium.
    - Coordinated a series of bi-weekly IE graduate student research showcases.
    - Invited external speakers and facilitated workshops on Resume writing
  - Judge, 2022 Summer Undergraduate Research Symposium, College of Engineering (07/2022)
  - Graduate Student Representative, Industrial Engineering Graduate Showcase (08/2022)
  - Moderator, Prospective Ph.D. Student Panel, School of Industrial Engineering (03/2023)
  - Student representative on the faculty search committee (10/2023 - 12/2023)

Honors and Awards

- **IISE Doctoral Colloquium** (3 participants nominated per department), 2025
- **NSF IISE Annual Conference Student Travel Award**, 2025
- **IISE Future Faculty Fellow** (15 participants selected per year), 2024–2025
- **InnovatED Graduate Research Magazine**, Purdue University (10 out of 65 articles selected), 2024
- **Lee A. Chaden Fellowship in Industrial Engineering**, Purdue University, 2023–2024
- **Graduate Student Government Travel Award (Tier 1)**, Purdue University, 2023
- **Graduate School Summer Research Grant**, Purdue University, 2023

- **Frederick N. Andrews Environmental Travel Grant Award**, Purdue University, 2023
- **Student Scholarship**, Seth Bonder Foundation INFORMS, 2022
- **Honorable Mention Poster Award** (5.3% award rate), Purdue Engineering Graduate Showcase, 2022
- **Center for the Environment Travel Grant**, Purdue University, 2022
